ChromaSilk POPULAR COLOR FAMILIES

NATURALS - SLIGHT BLUE BASE

Tones most popular for gray coverage. Naturals are also great when a slightly, cool natural shade is desired and for neutralizing unwanted orange from the hair.

LOWLIGHTS - DEPOSIT ONLY

Six deposit-only shades specifically formulated as the perfect pre-blending of replenishing true-to-level tones. Available in Levels 6 and 8 Gold, Copper and Neutral, these popular shades create natural looking lowlights that will complement any skin tone.

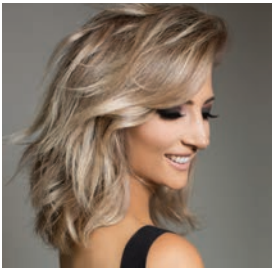

BOMBSHELL BRUNETTES - GOLDEN VIOLET BASE

ChromaSilk offers exclusive hair colors not available anywhere else for brunettes! The Bombshell Brunette Collection's unique tonal quality takes two contradictory hair colors – golden and violet – to create unique brown shades that flatter every skin tone.

VIBRANT REDS - SHIMMERING RED BASE

For the longest-lasting, red hair colors, look no further than ChromaSilk's Vibrant Reds. Embedded with vibrant, red pigments and interesting twists of underlying base pigments, PRAVANA offers a red for any and every one.

READING CHROMASILK SHADE NUMBERS

The first number indicates the level of color deposit. The second two numbers indicate the tonal value in accordance with the chart below. The first tonal number represents approximately 70% of the tonal base while the second tonal number represents 30% of the tonal base.

Example: 7.43 = Level 7 blonde with 70% copper 30% gold.

SHADE TONE	NUMBER	BASE
Naturals	NONE	Slight Blue
Ash	1	Green

Copper	4	Orange
Mahogany	5	Violet Red
Red	6	Red

3. Once processing is complete, thoroughly rinse and lightly shampoo with VIVIDS Color Protect Shampoo with cool water until the water runs clear of color.

VIVIDS ADDITIVES

When adding Black or Clear to color formulas, lighten according to the VIVIDS color being mixed.

MIXING/CUSTOMIZING COLORS

ChromaSilk VIVIDS are ideal for creating unlimited palettes of custom shades. The color in the mixing bowl is the color you will see on the pre-lightened hair. If the hair has exposed underlying pigment, this will effect the final color, making it essential to pre-lighten to the correct level.

KEEP YOUR Vivids VIVID!

VIVIDS Color Protect after care provides all the essential tools to preserve color vitality and vibrancy like no other product available.
